Letter of
recommendation

Bruckner Group Asia Pacific Co. Ltd. is a subsidiary of the Bruckner Group. It was founded in 2021 to act as a service center for the Bruckner Group, supporting them worldwide in the commissioning, service and modernization of their plants.

In the run-up to the foundation of the company, the Sanet Group advised us on the selection of the location and on the legal structure of the service company as a %100 subsidiary (WFOE).

Following the location decision, Sanet Legal Ltd. took over the legal establishment of the company and conducted the application process for Trade and Investment Office (TISO) status through the Thai Board of Investment (BOI). Sanet provided detailed and reliable advice on how to align our business plan with the BOI's requirements, culminating in a positive decision on our application.

During the legal and technical implementation of our project, the Group continued to support and assist, through its recruiting service "Creating Careers", the staffing of our key positions, including finance manager, process engineers and highly qualified engineers for international deployment in the commissioning of the Bruckner Lines" and for the workshop management.

The tasks taken over by Sanet were performed without reservation with great expertise and commitment, both in terms of legal challenges and practical implementation. Even with unexpected challenges outside the core tasks Sanet was and is always helpful to us.

We were positively impressed by the high level of motivation and personal commitment of all employees involved in the sub-projects at all times, as well as their permanent availability.

The cooperation with the management is based on mutual trust, at all times often and proactively

We are happy to cooperate with the Sanet Group and its wide range of offered services.

Therefore, we recommend foreign companies and/or their companies in Thailand to cooperate with the Sanet Group in the preparation and practical implementation of their projects and also in the various challenges in their daily business.

Rayong,di 17. 01. 2022

Walter S or

(Managing Director)
